

STONY PLAIN SUN.

VOLUME TEN.

STONY PLAIN, ALBERTA THURSDAY, JULY 10, 1930.

Whole Number 518

LIBERAL MEETINGS:

*** *** *** ***

THE RT. HON.

W. L. Mackenzie King,

Hon. Ernest Lapointe,

— AND —

Hon. Charles Stewart,

will address a Liberal gathering
at the

Pantages' Theater,

Edmonton, on

THURSDAY,

JULY 10th,

AT 8 P. M.

The addresses at this Meeting will be
Broadcasted; so if you are unable to
be present, be sure and listen over
your Radio.

HON. CHAS. STEWART

will address a meeting at the
Moose Hall, in Stony Plain, on
SATURDAY, JULY 12th, at 9 P. M.

Everyone Is Cordially Invited to
be present.

Auto Accident on Main St.

Having succeeded in getting his engine started by hand-cranking, Mr. Edkins was surprised last Friday morning by having his bus back hastily away from him, eliminate the gas standard at the side door of Stony Plain Hardware, and bump into two other cars before coming under control. The engine had been left in "gear." The bus is not much the worse for the encounter; but one of the cars is carrying a few souvenirs of the fray.

Sun Letter Box.

The Editor is not responsible for opinions expressed by the correspondents.

Editor Sun: Dear Sir—I have read with interest the accounts in your valued paper re the recent burglaries and attempted burglary hereabouts. I am enclosing a clipping from a paper which you may print, with my compliments:

WHY HE FAILED.

Magistrate—Say, what's the matter you didn't bring in that burglar you were sent after last night?

Officer—Well, I walks in and sees him take the money out of the safe. I shows him me badge and me handcuffs, and he looks at me, so I see: "You're under arrest!" but he wouldn't believe I was a hoffer, and he cripes I had to let him go.

Goebel—Gitzel Gitzel—Goebel

A wedding of unique interest took place at St. John's Lutheran church (Manitoba Synod), Golden Spike, Tuesday last, July 8. The particular interest centres around the fact that a brother and sister were married to a brother and sister.

The contracting parties were—Miss Wanda Gitzel (daughter of Mr. and Mrs. Gottlieb Gitzel) and Mr. Fred Goebel (son of Mr. and Mrs. Ludwig Goebel); the other couple were Miss Elizabeth Margaret Goebel and Mr. David Gitzel.

The ceremony was performed by the Rev. Ewalt, pastor of the church. The edifice was crowded to the doors by the friends of the young couple. A reception and wedding feast were given at the home of Mr. L. Goebel; and this was followed by an evening of dancing and games.

Beuerlein—O'Donnell.

St. Joseph's cathedral, Edmonton, was the scene of a simple but beautiful wedding on Saturday morning July 5, when Irene, only daughter of Mrs. Mary O'Donnell, of Spruce Grove, became the bride of Mr. Harry Beuerlein, son of Mr. Robt. Beuerlein of Spruce Grove. The ceremony was performed by Rev. Father Hughes.

The bride was charming in a gown of ivory Venetian lace and georgette fashioned on princess lines. Her filmy veil was arranged in a Juliet cap and caught with orange blossoms. She carried a shower bouquet of Opheelia roses and lily of the valley.

The bride, who was given in

A World Subject of Discussion

The whole civilized world is discussing one subject today.—Tariffs. And in those countries which are the more highly organized, where the standard of living is highest, where the most modern and efficient methods of production, both in agriculture and in industry, prevail, the discussion is most keen.

For over a year and a half the United States has been in the throes of a nation-wide struggle over the new Hawley-Smoot tariff, the effect of which is to raise duties against all other countries to a height never before attained.

In Great Britain, Lord Beaverbrook, supported by his fellow publisher, Lord Rothermere, is engaged in a great campaign of publicity with the object of swinging the British people into support of a new fiscal system, based on the idea of free trade within the Empire, or as near an approach to it as possible, coupled with tariffs against all foreign countries. Ex-Premier Baldwin still maintains his stand in favor of what are termed "safeguarding" of industry duties, coupled with a referendum on the question of placing a tax on food supplies in order that a preference may be given to the overseas Dominions.

In France, in Germany, in Italy, and in other European countries feelings akin to bitterness have developed against the United States because of the higher duties that country has levied against the world. All these nations, heavy debtors to the United States, feel outraged that the only means whereby they can pay their war debts to the U.S., namely, by exports to that country, is thus largely closed to them. Talk of reprisals is general, and in a number of instances higher tariffs have been imposed, particularly on products and manufactured goods in which the United States is a large exporter.

The Commonwealth of Australia, finding itself over-burdened with an extremely heavy national debt, and in need of larger revenues, has raised its tariff to new heights, and in regard to certain articles has entirely prohibited their importation.

In Canada, the recent Budget of Hon. C. A. Dunning, imposing countervailing duties on a specified list of articles against the United States, raising other duties against that country, and increasing the scope of the preference accorded to Great Britain and other parts of the Empire, is now a daily household topic all over the Dominion, and the outstanding issue in the general election campaign now in progress.

Without presuming to offer any opinion on the relative merits of High Tariffs, Low Tariffs, or no Tariffs at all, because to do so would be to enter into the realm of partisan discussion, and such discussion is rigidly barred in this column, the question may well be asked: "What is to be the outcome of this world tendency on the part of practically all nations to erect trade barriers one against the other, and each one against all others?"

Certain facts must be recognized and admitted by all. It cannot be denied that Tariffs do engender hard feelings and suspicions between nations, and when such feelings develop, no matter what the cause, there is always great danger of the ensuing bitterness becoming gradually more intense, and the opposing parties brought to a frame of mind where they are less ready to co-operate in other matters for the common good of all. In a word, international goodwill is placed in jeopardy, and a situation created where some little spark might easily start a mighty conflagration, another World War in fact.

But even should such a dire calamity not result, what is going to be the economic effect on the world, and on each separate nation, if one and all pursue the policy of erecting trade barriers each against the others? The logical end, of course, would be the complete cessation of all international trade. With each nation refusing to buy from other nations, or at least making it so difficult as possible to do so, it would inevitably follow that no daily household topic all over the Dominion, and the outstanding issue in the general election campaign now in progress.

If nations decide not to buy largely, or at all from other nations, it follows, we repeat, that there will be no buying nations to which other nations can sell. Will this be to the advantage of any nation? Take the United States as an example. If it refuses to buy from others, and those others in return refuse to buy from it, will the United States be better off? Can its own people consume the enormous output of its factories and fields? The answer, of course, is "No." Then the inevitable result is less production, which in turn means less employment, and decreased employment means decreased buying power, and that means a still further decrease in consumption, production, employment, buying power.

It means further that if other nations will not buy goods made in the United States, the manufacturers in that country will erect branch factories in foreign lands, and employ the people of those countries. Thus these foreign people will secure employment at the expense of the United States worker.

And if other countries follow the same policy and do likewise, how much better off will any one of them be than if they continued to raise those crops for which by nature they are best fitted to produce, or manufacture largely for world trade, and each distribute freely one to the other?

The need of the hour in all lands would appear to be sound thinking and sane consideration of basic economic principles, divorced from purely nationalistic desires and ambitions.

Keep Outdoors In Summer

Get the outdoor habit this summer. It improves both the health and the temper. Clothes can be mended on the porch, peas can be shelled and potatoes peeled out in the open air quite as efficiently as inside. You can even take your lunch tray outside with a rug extra, sit and eat de luxe in the great outdoors.

I NO LONGER SUFFER WITH

write Mr. M. McArthur, Toronto: "I have suffered from constipation, indigestion, and nervousness for many years. I have tried many remedies but have found that Dr. Williams' Pink Pills are the only ones that have helped me."

W. N. U. 1845

Farm Loans Act

Six Canadian Provinces Have Taken Advantage Of The Act

Six of the provinces of Canada—Nova Scotia, New Brunswick, Quebec, Manitoba, Alberta and British Columbia—have taken advantage of the Farm Loan Act of Canada, securing long term mortgage credit. At the end of March loans to the amount of \$4,351,000 had been approved. Each borrower becomes a shareholder in company with the Canadian and Provincial Governments and receives his share of the profits. Loans are made on first mortgages on farm lands and farm buildings.

A REAL NERVE TONIC

Is a Bountiful Supply Of Rich Health-Giving Blood

Sufferers from nervous debility find themselves tired, low-spirited and unable to keep their minds on anything. They are totally unfit to perform their everyday duties.

Doctors of the nerves say sedatives, like opium, are bad. The only real nerve tonic is a good supply of rich, red blood. To secure this rich, red blood Dr. Williams' Pink Pills should be taken. Enriching and purifying the blood is the whole remedy. Concerning them Mrs. Albert Bentley, Bancroft, Ont., writes: "Two years ago I was in a terrible wreck; in bed for seven months; extremely nervous had no color. Nothing I tried seemed to help me till I began Dr. Williams' Pink Pills. My condition at once improved and today I am well and able to do anything without fatigue or trouble."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Appointment

P. C. Ward Now Chief Clerk Of Natural Resources Department

Official announcement was made recently of the appointment of P. C. Ward, Regina, as chief clerk in the Provincial Department of Natural Resources. Mr. Ward is also a member of the public service commission, and in the absence of P. H. Shelton, is acting chairman of that body. Previous to the appointment of the commission, Mr. Ward was civil service commissioner for a number of years.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated without other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Saskatchewan Pool Elevators

Handled 87 Per Cent. Of All Pool Grains Delivered In Province

During the present crop year Saskatchewan Pool Elevators Limited have handled 87.2 per cent. of all pool grain delivered in the province, according to an official report. This is the highest percentage that the organization has handled in any crop year to date.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victims of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes more living, and if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

Canada Sound Financially

Canada was described as the most sanely optimistic country he had ever been in by Sir William Lett, British automobile executive in an interview given at Toronto. He had visited the United States and the countries of Europe and had found Canada in what he believed to be healthier financial condition than any of the others.

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes:—"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything but they could get no relief. 'Dr. Fowler's' made a change in both of them in less than two hours."

On the market for the past 35 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Recipes For This Week

(By Betty Barclay)

SUMMER SALAD COMBINATIONS

Here are a couple of simple recipes for summer salads, that should come in handy at this time. Liberal servings of such salads will enable you to eat less of the heavy foods, and thus put yourself in better position to stand the heat of summer.

Cherry Delight: Arrange three or four large orange sections around edge of a lettuce cup made by cutting a small head of lettuce in two and scooping center from one half. Fill centre of cup with stoned cherries. Serve with mayonnaise or boiled dressing.

Orange and Strawberry: For each serving use one slice pineapple, quartered; and three or four orange slices, halved. Garnish with four large, ripe, unhalved strawberries. Top with a marshmallow half.

A DELICACY WITH FRESH BERRIES

1 package vanilla junket.

1 pint milk.

Strawberries.

Powdered sugar.

Make junket according to directions on package. When ready to serve, dust berries with powdered sugar and fill up the glasses.

Fruits like oranges, pineapple and strawberries should not be put into the milk when making junket, as the fruit causes it to whey. Crushed and sweetened, these fruits make tasty toppings.

Blackberries or raspberries may be put into the desert, also canned or preserved berries, peaches or other fruits.

Minard's Liniment gives quick relief.

Rivals Boy's Pocket

Handbags carried by women are beginning to rival the small boy's pocket for variety of contents. One bag examined recently contained a handkerchief, bundle of letters, diary, mirror, comb, purse, note-case, stocking-mending outfit, cigarette case, lighter, powder-case, lipstick, keys, patterns of cloth and a shoe-lace.

Cut Down Food Wastage

--- by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs sheet form for less exacting uses. At grocers, druggists, stationers.

The Bacon Export Market Neglected As Canadian Hog Industry Fails To Expand

Exports of bacon from Canada to Great Britain are no greater today than they were 37 years ago. This means that while our hog industry has not ceased to grow, the growth in the number of hogs produced annually has not been enough to take care of the needs of both export and domestic markets.

The chart on this page will help to make the conditions clear at a glance. The upper line shows the rise and fall of our bacon exports to the British market since 1893. It tells its own story of a rapid rise until 1900, a slight recession then and a rise again to 1904, with then a steady drop until 1914 when we were almost back at the 1893 level, which may be taken as the end of the first period. Then followed the enormous wartime increase until 1921, followed by a rapid downward trend until today we are again back at the same level as 1893.

For the two periods. The per capita consumption in Canada, so far as the available records go, seems to have increased. An estimate of the Bureau of Statistics set the pre-war average at 60 pounds per person. In 1928 the per capita consumption of all ports was estimated to be 82 pounds—a figure arrived at by dividing the total production less net exports by the total permanent population. This does not seem to take into account the highly important temporary population of the now vast tourist trade in Canada. If this were properly given weight the per capita figure reported might be considerably diminished. Yet whatever increase has taken place in consumption over the period as a whole it is evident that provision has only been made for one of the two Canadian markets. The vast export possibilities in Great Britain have, not been neglected in the full

An Empire Service

Duke Of Connaught Advises British Youths To Go To Canada

"There have probably been no greater openings at any time in the world for young men prepared to work than those presented by Canada today," declared the Duke of Connaught formerly governor-general of Canada, in his address at Wellington College, Crowthorne, recently. There was an enormous demand for qualified engineers and chemists and if Britain were able to keep up sending a steady stream of trained men to the dominions it would be doing a great Empire service.

Busy New York

In New York City, a child is born every four minutes. Nine million persons scramble daily for subway seats. Fourteen persons are married every hour. On the average for a year, 23 new buildings are put up every day and six turn down. New Yorkers and their guests eat 7,000,000 eggs a day. And how the human family loves amusement! There are 800 theatres in New York City.

Extraction Of Gasoline From Tar Sands Of Alberta Is Now An Accomplished Fact

Planning Sheep Survey

Dominion Government Will Make Complete Study Of Western Conditions

An economic survey of sheep ranching in Saskatchewan, Alberta, and British Columbia will be undertaken this summer by the Dominion Department of Agriculture. Dr. J. Grisdale, Deputy Minister of Agriculture, has announced. The work will be under the direction of the agricultural economics branch in co-operation with the Dominion experimental farms. Preliminary arrangements for the survey are practically completed and field work will get under way in the near future.

A complete study of conditions in the sheep ranching industry is contemplated. This is the beginning of a programme of research work in agricultural economics on behalf of the livestock industry.

It is anticipated that between 100 and 200 sheep ranches will be visited in the three provinces, and at these complete information with respect to all phases of operation will be sought. The economic survey will seek to establish facts as to the profitability of sheep ranching as carried on in different regions.

New Classification

For Corn Exhibits

Five Groups Instead Of Four As Announced For Grain Show

The executive of the World's Grain Exhibition is recommending that conventions of other bodies to be held about the same dates in 1932, should arrange in advance so that there will be no conflict and as little congestion as possible.

L. H. Newman, Dominion cerealist, reported a new classification for corn exhibits which recognizes five distinct groups instead of four as formerly as follows: Dent varieties requiring less than 110 days to mature, varieties requiring more than 110 days but less than 130 days to mature, and varieties requiring more than 130 days to mature; and Flint varieties requiring less than 110 days to mature. Total prize money remains unaltered, namely \$19,000 for all classes.

It is estimated that one out of every 34 automobiles in the United States has an accident at some time during the year.

A pedestrian is a man whose son is home from college.

By the utilization of natural gas, gasoline in almost unlimited quantities can be economically produced from the tar sands in Northern Alberta. Announcement of this discovery was made by Dr. E. H. Boomer, University of Alberta, addressing the National Research Council.

The credit for a new method, which yields light oils suitable for the production of gasoline, goes to Dr. Boomer and Dr. A. K. Clark, also of the university. A semi-commercial plant is now in operation in the field, and results show that Western Canada, at least, shortly will be independent in the production of motor fuel.

Research in connection with tar sands has been conducted for several years under grants by the National Research Council and energetic study has produced striking results, it was revealed.

By the application of hydrogen, obtained from the smelter quantities of natural gas available in Alberta, Dr. Boomer has hydrogenated the tar and produced a light oil that readily cracks to produce gasoline.

Dr. Clark and Dr. Boomer have been working for a considerable period on schemes to make tar sand and natural gas available for commercial consumption in transportation form. The first step in the process was to extract the tar from the tar sands, then by the introduction of natural gas into the combination a method has been found to produce a light oil from which gasoline can readily be manufactured.

Tar sands in northern Alberta were stated to be almost inexhaustible, while natural gas, with its important content of hydrogen, is also present in enormous quantities in the province.

The fact that a plant for the production of gasoline has already been set up and has established definite commercial possibilities, is regarded here as a favorite indication that gasoline from products that formerly went to waste is now beyond mere possibility, and promises the founding of an important industry.

Officials of the National Research Council are enthusiastic as to the possibilities of the new method as far as Western Canada is concerned, and are agreed that, with large plants and large production, gasoline from this source would eventually become a competitive factor on the markets of Eastern Canada.

Dr. H. M. Tory, president of the National Research Council, expressed his approval of the discovery made by Dr. Boomer and Dr. Clark. Dr. Tory said that the new method of providing gasoline from tar sands held great promise and pronounced it "the most significant development in this direction in several years."

Considering the fact that semi-commercial production was already a fact, Dr. Tory said it might be expected that pronounced development would occur in a short time. Dr. Tory was not prepared to say to what extent gasoline produced by this means would invade Eastern Canada, but stated that such was not beyond the bounds of early possibility.

Experiments in an endeavor to utilize valuable materials in the tar sands and natural gas of the prairie provinces had been under way for some time, he said, but this was the most significant advance. The discovery had the value of rendering useful two of the most easily obtained products in that province through their combination.

Client: "I hear you paint splendid battle pictures?"

Artist: "Yes."

Client: "I was a group; my wife, my mother-in-law, my two sisters, law and myself."—Gutierrez, Madrid.

A Comparison of Canadian Bacon Exports and Pork Imports

We are back at that stage—but worse. For now our exports, about 20 million pounds in 1929, are almost exactly balanced by our imports from the United States. This is seen from the lower line showing our imports since 1905.

That balance means that Canadian hog growers are producing just enough for the home market with no margin whatever for an export trade. In general, it may be said that the American imports are not re-exported. They are absorbed into the domestic trade, filling a gap that would otherwise be left in the home supplies by the absorption of the Canadian selects and hams used in our export White Star trade. To a less degree we seem to have developed the same trend as in Ireland, where the better grades of bacon are shipped to England and American bacon is imported for the domestic trade.

In 1893, the year in which the chart records begin, Canada had a population of about five million people. The number of hogs then reported on farms was 1,734,000. In 1929, when our population was about ten million, our hog numbers on farms were set down as 4,382,000. That is a ratio of about 34 hogs to every hundred people in 1893, and of 43 hogs today. Forty years ago hogs were heavier than they are today, but the litter is probably larger today and marketing is done much earlier, that is, the turnover of livestock is faster, so that the total amount of pork produced may not be greatly different

sense of the term, but no strong co-ordinated effort by producers has been made to turn it to proper account. Canadian packers have striven unremittingly for well over a quarter of a century to hold that market, first against the competition of Irish and Danish bacon shippers and, latterly, against Dutch, Swedish, Baltic and Polish competitors. But without hogs no bacon trade can be kept going. And the number of hogs kept on Canadian farms have been insufficient to supply more than one market.

The British market in bacon is most vital to the Canadian hog producer both with regard to actual size and in its trend. For the last three years the British importations have been: 1927, 948,528,000 pounds; 1928, 990,000,000 pounds; 1929, 927,584,000 pounds; Canada supplied in 1927, 56,338,000 pounds, or 6 per cent; 1928, 34,384,000 pounds, or 3½ per cent; and 1929, 22,282,000 pounds, or 2½ per cent of the total. This year it is expected that our supply will drop below 2 per cent, or not be almost wiped out.

So much for the size; what of the trend? Take only after-war conditions. In 1921 the total British imports of bacon were 636 million pounds. They went up by leaps and bounds each year until in 1928 they were but a little short of a billion pounds—an increase in the eight years of over 58 per cent. In that period the Canadian share of the total trade had slipped back from 14 per cent to 2½ per cent.

It is noteworthy that though there have been increases in the lower priced qualities of bacon from Russia, Poland, and the Baltic, with frozen pork from New Zealand and Argentina, the main increase in the British trade has been in the higher-priced qualities of White Star from Denmark, Sweden and Holland, the first two running a little above Canadian and the Dutch a little below.

Looked at from the national income point of view the loss to Canada of this great trade is important. The British consuming public has year by year paid out, in wholesale prices, enormous sums for imported bacon, of which Canada's share is far below the possibilities of production.

The Indian Government has curtailed orders for government railways.

Street Accidents in London

Records Show Three Persons Killed and 157 Injured Daily For First Three Months

Official papers show that on each day for the first quarter of this year three persons were killed and 157 injured—in London, England, alone. Last year's totals of killed and injured in London, were 1,353 and 56,321. For the whole of Great Britain there were 6,696 killed and 190,817 injured. During the two and a half years of the South African war the total British loss in killed was 5,774. In the same period, the figures given above, Great Britain may expect to lose 16,740 lives in street accidents.

Prince and President

This photograph, sent by radio from Clydebank to this continent, shows His Royal Highness the Prince of Wales, accompanied by E. W. Beatty, chairman and president of the Canadian Pacific Railway, inspecting the newly launched 42,000-ton vessel, largest steamship in intra-Europe trade, which will be placed in service between Quebec, Charbourg and Southampton in the early summer of 1931.

"Mummy, what is that?"
"A scare-crow."

WORLD HAPPENINGS BRIEFLY TOLD

Three hundred and fifty Canadian pilgrims headed by Cardinal Rouleau of Quebec, were received in audience recently by Pope Pius.

A permit to develop an area of 5-120 acres of bituminous sands in Alberta has been granted to Walter P. Hinton, Toronto, according to the current issues of the Canada Gazette.

The recently signed parcel post agreement between Cuba and Canada is expected to be a precursor to a complete commercial treaty between the two nations.

The French military tribunal has been dissolved and the possession of buildings, including the military prison, handed over to the German authorities.

J. G. A. Creighton, C.M.G., K.C., law clerk of the Senate, dropped dead in the Rideau Club, Ottawa. He was 80. He had occupied his post 48 years, and had also been parliamentary counsel of the Senate since 1909.

On June 27, the King and Queen of Iceland and Denmark, assisted by the Icelandic cabinet, received Canadians and Americans of Icelandic descent, at the foot of the famous Rock of Lava, in Thingville Plain.

Two hundred members of the Sons of Freedom, Doukhobor sect, passed peacefully through Nelson, on their way from Porto Rico, B.C., their home for the past year, to join the main Doukhobor settlement at Brilliant.

Announcement has been made that the Canadian Holstein Friesian Association will this year pay out \$15,000 in prize money to breeder-exhibitors of Holstein cattle in addition to the amounts paid out by fair boards throughout the Dominion.

The third No. 4 Canadian General Hospital Scholarship of \$250 in the faculty of medicine at the University of Toronto, has been awarded to D. W. Johnston, Regina, Sask. It is a war memorial scholarship given by the Alumni Federation of the University.

Bred In Western Canada

A great majority of the people have the mistaken idea that the wild duck supply comes from remote northern fastnesses. Most of the ducks ordinarily hunted for game, except the black duck and perhaps the green-winged teal, to a certain extent, are western in their breeding range. The canvas-backs, red-heads, mallards and scaups, which are shot in Ontario and Quebec in the open season, are bred in Western Canada.

In Hollywood
"Do you see that gentleman? He's the nicest man I was ever married to."
—Luise Sachs, Leipzig.

W. N. U. 1845

Beauty and Usefulness

No Reason Why Everyday Things Should Not Be Attractive

The consumer has cause to rejoice over the reunion of beauty with usefulness. Where else if not in the home should such a movement exert its most beneficial influence? There is no reason why beauty, like charity, should not begin at home; why the lamp, in the boudoir, the gas range in the kitchen, the ash tray in the library, the automobile in the garage should not be designed and colored by the best artists industry can afford to employ.

This light into the realm of art which modern business has taken is more than a profitable sales appeal. It is a cultural force that, if not dissipated in a straining toward extremes, may eventually help to raise the level of popular taste.

Canadian Bond Sales

Amount Being Invested In Bonds Speaks Well For Prosperity Of Dominion

The first five months of the present calendar year saw Canadian bond sales total \$292,477,277, as compared with \$228,765,612 for the similar period of 1929, and \$210,285,600 for that of 1928. Two thirds of the whole, or \$214,899,277, were purchased in Canada, while the remainder, amounting to \$77,578,999 were bought in the United States.

(By Annabelle Worthington.)

The feminine influence is apparent in a printed crepe silk with flared cap sleeves and bow neckline. It is the smart moulded silhouette with belted natural waistline. The back is slim and straight. Circular flared front of skirt provides interesting fullness.

Style No. 3473 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It's an excellent model for the attractive summer cottons, as printed dimity, pique print, embroidered batiste and printed voile. Flat silk crepe in skyark blue, dusty-pink shantung, coral-red linen and candy striped silk shirting are attractive selections. Pattern price 25 cents. Be sure to fit in size of pattern. Address Pattern Department.

UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following courses:

Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A., and B.Sc. and M.Sc. in the fields of PHYSICS, CHEMISTRY, BIOLOGY, GEOLOGY, AGRICULTURE, and ENGINEERING.

Through its FACULTY OF MEDICINE courses leading to the degree of M.D. (B.C.E.), M.B.C. (E.C.), and M.B.C. (E.C.). Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.A. and B.S. (H.E.C.). Through MANITOBA LAW SCHOOL, an affiliated institution, leading to the degree of LL.B. For terms of admission, details of courses and other information, apply to

W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

Using Small Seadrome

San Francisco Air Ferry Has Float Anchored At End Of Dock

A seadrome, built on the principles of proposed mid-sea landing places for aeroplanes, has been put in service by a San Francisco bay air ferry service. It is 100 feet wide, and declared to be the smallest floating island landing place in the country.

Shaped like an inverted saucer, the landing contrivance has a smooth rounded top and beneath its hull is a system of air tanks which may be regulated to control the depth and angle at which the device floats. The artificial island idea is carried out with sand on the inclines to prevent the amphibians from skidding. The sand is cemented into paint. The float is anchored at the end of a dock where more than 85 landings a day are made, with a similar number of take-offs.

Build Annex To Elevator

Big Grain Storage Elevator At Fort William To Be Enlarged

Erection of a grain storage annex of 1,600,000 bushels capacity to the Fort William terminal elevator of N. M. Paterson and Company, is announced by Norman M. Paterson, president, at a cost of approximately \$250,000. Construction will start immediately by the Pegles Construction Company, of Minneapolis and Fort William. It will be completed and ready for storage by about October 1. Engineers of the Pegles Company will prepare for construction to begin within a fortnight.

To Prove His Belief

A Polar expedition may be launched by Dr. Knud Rasmussen, noted Arctic explorer, to demonstrate his belief that the Eskimos are related to the neolithic men who inhabited the caves of what's now France and other parts of Europe.

SUNDAY SCHOOL LESSON JULY 13

JACOB, A SELFISH MAN TRANSFORMED

Golden Text: "For what shall a man be profited, if he shall gain the whole world, and forfeit his life? or what shall a man give in exchange for his life?"—Matthew 16:26.

Lesson: Genesis 25:19-34; chapters 27-33; 46:28 to 47:12.

Devotional Reading: Psalm 107:1-4.

Explanations and Comments

Jacob Treats His Brother Meany, 25:29-34.—One day Jacob prepared pottage, a dish made of lentils or small beans, and Esau, his brother, coming in faint from the field, begged for it. Therefore was his name called Edom, "Edom" means "Red"; Esau had red hair and red complexion, and it was red pottage for which he sold his birthright; all of these things combined to give him the name of Edom, and his descendants were called the Edomites.

"Sell me thy birthright," Jacob demanded, taking a mean advantage of Esau's exhaustion and hunger. By the birthright he meant the rights and privileges of the first born, which later, at least, included a double portion of the father's property and succession to the leadership of the family, priestly rites, and in the family of Abraham heirship to the covenant promise. Meant as Jacob's proposal was, it shows that he appreciated the value of the birthright, as Esau, who was the first born, was not so much concerned for the gratification of the present moment; could not.

"Behold, I am about to die," Esau exclaimed—he was "tired to death," as we so often say with a little truth—"and what profit shall the birthright be to me?" Jacob knew that when Esau's hunger was appeased Esau would repent his bargain and break it as readily as he had made it, so he asked Esau to swear solemnly to abide by it, which Esau did. It was a sharp bargain that Jacob drove, how sharp Esau did not realize, for he was not noble enough to appreciate the birthright's value. He had his bread and pottage and went his way; so he despised his birthright. His birthright was nothing that he could see or eat or drink, and therefore he could not appreciate it.

Regina's Population Increases

Population Is Now Estimated To Be Nearly 67,000

Population of greater Regina is now 66,996 according to figures released by the Regina Board of Trade. The figures represent the population of the city on June 1, it was said.

This figure shows a growth of 6,515 over the previous unofficial figure of 62,481 compiled by Henderson's directories and the Regina Board of Trade, reported for June 1, 1929.

The front pew in the church may lack the required degree of upholstery, but at least there's no windchill to take a header through unexpectedly.

Piles

High In Mental Ability

George Bernard Shaw Brainsman In England According To Vote Taken

George Bernard Shaw, according to readers of The Spectator, the well-known London weekly review, possesses the best brains in the country. The Spectator is a journal circulating among the more thoughtful class of people whose opinions in regard to mental ability are worth considering. The result of the recent vote is interesting in many ways. Here are the leading men in their "order of merit": Bernard Shaw, 214; Sir Oliver Lodge, 183; Lord Birkenhead, 162; Winston Churchill, 95; Dean Inge, 91; H. G. Wells, 86; Lord Melchett, 62; Lloyd George, 50; Phillip Snowden, 48; Sir John Simon, 45.

The present prime minister does not receive a vote and Mr. Baldwin gets but 13. The Archbishop of Canterbury, Dr. Lang, finds no place but the Archbishop of York (Dr. Temple), with 32 votes follows closely upon the heels of Lord Reading, who obtained 35. Sir James Harris is "placed" by 15 voters and follows G. K. Chesterton's 17.

Good Roads Program

Extensive Mileage In The National Parks Being Built This Year

Good roads are being extended to every part of Canada. In the rural districts of every province there is a network of paved or surfaced roads, which not only are of benefit to the motorists, but to the farmers. In the National Parks of Canada, the great playgrounds of the country, maintained by the Canadian Government, there is an extensive mileage of improved roads. The road building programme in these parks this year is a substantial one and the provincial governments are constructing sections to connect the roads in the parks with the principal provincial highways.

Good Even If Old

Students of Ottawa University have been served plum jam which had been buried in the scholastic grounds for twenty-seven years, and they liked it. Forty quarts of the preserves were found buried several feet in the earth by excoavators, working on the location of the old kitchen destroyed by fire in 1903.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

HOUSE OF LORDS HAS APPROVED RESOURCES ACT

London, Eng.—The British North America Bill, an amendment to the British North America Act embodying the agreements entered into between the Canadian government and the provinces of Manitoba, Saskatchewan and Alberta, for the return of the natural resources to those provinces, as well as the agreement for the return of certain crown lands to British Columbia, passed through all stages of the House of Lords without opposition.

The British Government is hastening passage of the bill in view of the celebration of the 60th anniversary of Manitoba's entry into confederation on July 15 next.

In moving passage of the bill, Lord Parmoor, Lord President of the council, explained the bill was merely intended to place the younger provinces of Canada on the same footing as the older ones.

Lord Parmoor said he wished to convey the government's very best wishes to the Province of Manitoba on the forthcoming happy anniversary, expressing the hope that Manitoba would have continued prosperity.

Winnipeg, Man.—Proclamation of a public holiday in Manitoba, July 15, will be made shortly by an order-in-council by the provincial government. The day marks the celebration of the 60th anniversary of Manitoba's entry into Confederation, as well as the date of return of natural resources to the province.

Canadians Given U.S. Citizenship

District Court of Appeal Reverses Decision of Lower Court

New York.—Douglas Clyde MacIntosh, theology professor at Yale, and Marie Averill Blount, Canadian world war nurse, both of whom refused to take the oath to bear arms in defense of the United States, won a reversal in the U.S. district court of appeal of the decision of the lower courts which denied them citizenship. Dr. MacIntosh, applying for citizenship in the federal district court in Connecticut, refused to make the oath because, he said, he would not bear arms if he believed the war to be for an unjust cause.

Miss Blount, who cared for shell-shocked soldiers in France, declared that under no circumstances would she bear arms in any war. She said she could not do so because she did not believe it would be consistent with Christianity. Miss Blount, the daughter of a Canadian Episcopal clergyman, now lives in New York.

Tenders Received

Ottawa, Ont.—Tenders have been received for the construction of additions to the government elevators at Moose Jaw and Saskatoon. The names of the successful tenderers for the contracts will not be made public by the Department of Trade and Commerce until an order-in-council ratifying the awards has been passed.

Parachute Jumper Claims Record

Saskatoon.—Charles Collins, of Aurora, Ill., claimed a new world's record for a low parachute drop when he made a successful landing from an altitude of 800 feet during the Saskatoon air meet. Collins also claimed the previous record of 900 feet.

French Consular Agent

Saskatoon, Sask.—Dr. J. P. Desrosiers, Saskatoon physician, has received official notification from the Department of External Affairs, of the Republic of France, appointing him consular agent of that country for Northern Saskatchewan.

Crowd At Air Circus

Saskatoon, Sask.—Birdmen of Moose Jaw Aero Club swept the sky of prizes when they annexed all four first awards in the Dominion Day air circus staged by the Saskatoon Aero Club. It is estimated that 20,000 people witnessed the show.

W. N. U. 1945

Diamond Jubilee Celebration

Great Interest Shown In Event To Be Held In Manitoba on July 15

Winnipeg, Man.—One of the most interesting features of the Diamond Jubilee celebration to be held throughout Manitoba on July 15, will be the social re-unions among the early settlers. There will be general recognition of the fact that this province would never have amounted to much if it had not been for the efforts of the men and women who came first. Appropriately enough these men and women, or at least those of them who are taking part in the celebrations, will "come first" in public esteem. They will be honored according to their merit, which means that everyone will be a witness to their achievements.

Some of the towns and villages are making a feature of the "home-coming" idea, and there is much to be said for that phase of the demonstration. If all the Manitoba people who left to make their homes in other parts of the world were to come back for the "doings" on July 15, a new and brighter chapter in our history would be written. As many as do come back will arouse enthusiasm of a special sort. Manitoba men and women carry with them wherever they go the distinct stamp of their satisfactory experiences in the province, and their welcome back will include more than the usual flavor of that western hospitality which is a theme for poets and writers. In addition to the rejoicing over our material advancement there will be the whole-souled gratification at meeting once more those who were largely responsible for that advancement.

It is a moot question whether the men and women of today have the same "stuff" that was apparent in the pioneers. A well-known western politician whose name is almost a household word in thousands of homes on the prairie, uses an intense brand of emphasis—his long suit—in declaring that this age is soft and spineless. He points out how many and how long were the struggles of the early settlers, and there is no doubt that he knows what he is talking about, for he was one of them. The debate will not be decided this year; discussion is likely to be carried on until the "discussers" run out of material. A diplomatic judgment on the matter would admit that there was a great deal to be said on both sides. The men and women of the 60's and 70's—the real pioneers—undoubtedly faced and overcame great hardships. Their resources, except in determination and intelligent application, were few, while their difficulties and disappointments were numerous. Their spirit carried them through and helped them to establish a new civilization on the banks of the Red River.

Kingsford-Smith Honored

Given Rank Of Wing Commander By Australian Government

Canberra, Australia.—Announcement has been made in the House of Representatives that Squadron Leader Kingsford-Smith had been promoted to the rank of wing commander in recognition of his westward trans-Atlantic flight.

Premier Scullion said that the government was anxious to give him some greater honor to mark his achievement, but that the conferring of titles clashed with Labor policies.

Announce Promotion

Ottawa.—Promotion of Lieut.-Col. W. G. MacFarlane, V.D., to the rank of colonel, to command the Fifth Mounted Brigade, of Calgary, Alberta, was announced recently at the Department of National Defence. He succeeds Col. H. C. A. Harvey, G.M.D., who has been transferred to the reserve of officers.

Discuss Indian Situation

London, Eng.—Leaders of all British political parties conferred recently on the state of the situation in India. It is understood they were mainly concerned with preliminary arrangements for the Indian Conference, in London, next October. No statement was issued.

Train Wreck In Russia

Moscow, Russia.—Twenty-two persons were killed and 28 injured in the terrific smashup of a train near Leningrad. The accident followed the switching of a passenger train onto the wrong track.

CIVIL SERVICE COMMISSIONER

Mrs. F. B. Reilly, who has been appointed to the Saskatchewan Civil Service Commission, is the first woman in Canada to hold such a position. Mrs. Reilly has taken an active part in western public affairs for many years.

Air Service Discussed

British Minister Urges Dominion To Develop Civil Aviation

London, Eng.—The office of the secretary of state for the colonies was one of the busiest spots in London recently, with colonist representatives and officials of the department gathered to hear and discuss the views of Lord Thomson, secretary of state for air.

Dealing with the subject of civil aviation, Lord Thomson urged the colonies to develop light aeroplane clubs and also advocated the establishment of aerodromes under the control of the governments.

Frederick Montague, under-secretary for air, emphasized the importance of recognizing the West Indies as a link between Canada and South America. If there was a possibility of starting a service between Canada and the West Indies it would be an important part of the direct route to South America.

Start Thirty-Five Day Tour

Treaty Money Carried To Northern Indians By Plane

Ottawa, Ont.—Carrying \$25,000 in treaty money to the Indians of the far north, two cabin monoplane, piloted by officers of the Department of National Defence, took off July 2, from Rockline Aerodrome. The planes will take H. N. Arvey, of the Department of Indian Affairs and W. S. Cain, Deputy Minister of the Ontario Department of Lands and Forests, on a 35-day tour of the North to carry out their duties as Dominion and Provincial Commissioners of Indian treaty number 9.

School Board Probe

Vancouver, B.C.—Charges that the city had suffered a loss of \$20,000 through short deliveries of supplies to the school board, and that coal and coke paid for by the board had been delivered to an employee's home were made at a meeting of the select committee of the city council investigating the affairs of the school board. Complete denial of the charges was made by those charged with benefiting from them.

New Canadian National Steamer

Above is shown S.S. Prince Henry, the latest acquisition to the Canadian National fleet on the Pacific Coast. S.S. Prince Henry, which has arrived at Vancouver, is a tribute to the shipbuilding art of British yards. The vessel is 384 feet in length and fitted in the most modern way. The passenger accommodation, designed for the Pacific Coast tourist traffic, is ultra modern with rooms on 34 first class and 10 second class. The vessel will have a Board of Trade license to carry 1500 day passengers. S.S. Prince Henry is the first of three new ships which will start service this summer. She will ply between Vancouver and Skagway during the summer months, while her sister ships S.S. Prince Robert and S.S. Prince David will inaugurate a tri-city run between Vancouver, Victoria and Seattle.

Saskatchewan's Coal Production Higher

But All Canadian Output This Year Shows Decrease

Ottawa, Ont.—Coal mined in Canada during the first quarter of 1930 amounted to 3,971,808 tons, a decrease of 14 per cent. from the output of 4,622,728 tons for the first three months in 1929. Compared with the first quarter five-year average, there was a decrease of approximately two per cent. during the period under review. Bituminous coal produced during January, February, and March, totalled 2,704,147 tons, sub-bituminous 162,612 tons, and lignite 1,105,049 tons. Saskatchewan was the only province to record an increase in output over the first quarter of last year. Figures were published at the Dominion Bureau of Statistics.

Alberta's output of 1,639,324 tons was 41 per cent. of the total Canadian production and recorded a decrease of 9.5 per cent. from the first quarter five-year average. Nova Scotia's total of 1,613,415 tons and Saskatchewan's total of 174,531 tons were respectively, 11 per cent. and 17 per cent. higher than the quarterly five-year average. British Columbia mines produced 581,880 tons, a decrease of 14 per cent. from the 1925-1929 first-quarter average. New Brunswick's production was slightly higher than the five-year average.

New Ruling Is Welcomed

Bonded Grain In United States May Be Held Over For One Year

New York.—The port of New York authorities recently pointed out that "a serious threat to the grain commerce" of the port of New York has been removed by a new administrative provision in the tariff law permitting Canadian grain to remain in transit one year before exportation. General concern was manifested by port officials and the grain trade over a ruling in November by the commissioner of customs requiring railroads to dispose of all bonded grain in transit within ninety days after receipt.

Enforcement of this decision, it was felt, would have been ruinous to the grain trade and an accumulation of bonded grain would have been dumped upon a market with no export demand. A committee representing the port authority, the produce exchange, trunk line railroads, elevator interests and others, protested to Washington and following conferences with treasury officials enforcement of the ruling was held in abeyance pending legislative action.

Valuable Discovery

Flint Flon Lake Bed Said To Be Rich With Gold

The Pas, Man.—Copper mineralization carrying high values of gold has been found on the bed of Flon Flon Lake, recently drained, according to a statement issued by R. E. Phelan, vice-president of the Hudson Bay Mining and Smelting Company. Extent of the mineralization is not known, it is stated, but exploration work is going ahead.

No definite date has been set for start of production at the mine, it was announced.

NAVAL TREATY IS CRITICIZED BY EARL BEATTY

London, Eng.—The navy's own viewpoint of London's part in the recent naval conference was communicated by the admiral of the fleet, Earl Beatty, and Lord Jellicoe, wartime sea lord, to the House of Lords in vigorous attacks upon the treaty conclusions.

Earl Beatty, often recognized as Great Britain's most prominent naval figure, assailed the treaty, declaring Great Britain the only nation that made any reduction of armament and that the reduction made was so great as to render her impotent and incapable of maintaining control over the various states of her farflung empire.

They had overlooked the possibility of a necessity for sending warships—possibly a fleet—to India, said the Earl.

Earl Beatty said the London Naval Treaty had resulted in an increase of armament for other countries. The United States increase being 233,000 tons, Japan's 10 per cent. of her strength and France being left without any restriction whatever.

France, the speaker said, already had built three 10,000 ton cruisers, is building three more and has authorized ten others, while Italy had built 2, is building 4 and has authorized one.

Admiral Beatty severely criticized the Admiralty for formulating a naval policy that did not take into consideration the possibility, however remote, of a naval attack on the part of the United States.

Dates For Musical Festivals Next Year

So Arranged That Same Judges Will Officiate At Each

Edmonton, Alberta.—Dates for musical festivals in the west in 1931 were arranged at the annual conference of the Western Canadian Musical Festivals Association, held in Edmonton. Delegates were present from all parts of western Canada. George Matheson, of Winnipeg, presided.

Dates for the 1931 festivals are: Macleod, at Winnipeg, April 20 to May 2; Victoria, May 5 to May 9; Vancouver, May 12 to May 23; Alberta, at Lethbridge, May 25 to May 30, and Saskatchewan, June 1 to June 6.

These dates have been arranged to allow the same judges to officiate at each of the festivals.

Adjudicators appointed were: H. S. Robertson, of Glasgow, Herbert Samuels and H. Plunkett-Green, of London.

Airplane Crash

Saskatoon Instructor Pilot Narrowly Escapes Death In Accident At Prince Albert

Prince Albert.—D. W. Moir, Saskatoon instructor pilot, narrowly escaped death here when a Moth plane crashed on the exhibition grounds while being demonstrated to directors of the local light aeroplanes club.

Moir was stung at a low elevation before about 50 persons, and in coming towards the ground, the tip of the right wing hit the earth and sent the machine plowing up the field at terrific speed. After swerving uncertainly for about 75 feet, the plane turned to the right suddenly, and nose into the ground, throwing the pilot clear.

The impact was heard for a number of blocks, and the plane was badly wrecked. Moir sustained only an ugly gash over the left eye as the source of his miraculous escape from death.

Will Recover Bodies

Brookville, Ont.—As the representative of the Minister of Public Works and the Dominion Government, Captain T. D. Caldwell visited the homes of Brookville men who lost their lives in the "J. B. King" drill boat disaster, assuring relatives that the government would do everything humanly possible to bring about recovery of the bodies of the 23 men still missing.

Gallopupski's Gallop

The weekly runaway for Stony Plain was pulled off on Saturday night, when Main street was filled with parked cars. A frisky team hitched to a lorry, down at the rail way track, became frightened at the noise made by a shunting engine, and started south on Main. After missing some cars in front of The Sun office by a whisker, they were stopped in front of the drug store, with the driver still aboard; when it was found a rein had caught over the end of the wagon tongue. The name of the team's owner was, quite appropriately, Mike Gallopupski.

These runaways are now becoming so frequent the proposal has been made that the members of the fire brigade be posted along Main street, to stop the speeding equines before any damage is done to the cars of those who come to town to do their shopping.

Coming East on the Train

"Porter, fifty cents for another pitcher of ice water."
"Sorry, suh, but, if I takes any mo' ice, dat corpse in de baggage car ain't agoin' to keep."

Church Services.

Services in St. Philip's Church next Sunday, 10.00 a.m.
United Church service every Sunday Eve. at 7.30.

A Public Meeting In the Interest of the Conservative Candidate

COL. F. C. JAMIESON,

will be held in **Moose Hall, Stony Plain, Friday, July 11 at 2.30 P. M.**

The speakers will be—
HON. H. H. STEVENS, former Minister of Customs,
HON. R. L. MAITLAND, Minister in B. C. Government.
And the Candidate—
COL. F. C. JAMIESON.

NOTICE!

My wife, Mrs Annie Renczeky of Carvel P. O., having left my bed and board, I will not be responsible for any debts contracted by her, from this date.

To Aid the Aged and Infirm

The Editor has been asked to help along the movement for a change to be made in the location of the place where the voting is usually held here in Stony. The walk-up of the 24 steps up to the town hall is considered quite a handicap on the old folks. Those not able to make the climb-up lose the chance to vote. The matter will be taken up with the official who locates the polling booths.

Stony Plain and District.

Mr and Mrs Ernst Pitzler left Tuesday evening, on a motor trip to Calgary, to see the Stampede; going on from there to Banff and the Lake Louise.

The members of the Fire Brigade were given a practice run Friday evening.

The Royal Cafe is now sporting a new awning on the Western front.

Miss Dora Brown, Holden, is visiting here this week with Miss Becker.

Mr J E Morrison of Eutawville is in charge of the local station at present, in the absence of the regular agent on vacation.

Messrs W Rosnan and Ph Enders left on Tuesday's train for Wembley. They had intended motoring up, but the condition of the roads did not permit.

Mr Barrie of Edmonton Beach announces that all the prizes won in the contests on Dominion Day at the Beach will be presented to the winners next Sunday afternoon, July 13th, at the Edmonton Beach.

Attention is called to the fact that the addresses which the Right Hon. Mackenzie King and two of his Ministers intend making tonight at Pantages Theatre will be heard over the radio. The machine at the Royal Cafe will be tuned in for this.

The bills are out for a big Conservative Rally in Moose Hall on Friday afternoon July 11. Hon H H Stevens, former Minister of Customs, now of Vancouver, and the candidate Col Jamieson will speak.

The Jubilee services at the Glory Hills Baptist church on Sunday, July 6, were well attended. Sunday school was held at 10 a.m and Morning worship at 11. Rev W A Benke was in charge.

Stony Plain U.F.A. Local holds its regular monthly meeting this (Thurs) evening in the Royal Parlors.

Off with the old Black Rims; on with the new White or Yellow Gold. Do you know that the black frames are out of date, and that white is the proper thing in spectacle wear? Be up to date and see M Mecklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, on Thursday, August 7th. 10170 101st St. Edmonton. Phones 1072 & 2946.

NOTICE!

Notice is hereby given that all parties who hauled gravel from the Pit on S.E. 32, 53, 27, w. 4th, are hereby required to give an accounting and pay for same to my Solicitor, Jas. Malloch, at Stony Plain. (Signed) 18
ADDISON BROX,
Spruce Grove, Alta.

Spruce Grove News

Hon. Chas. Stewart was renewing acquaintances here on Saturday afternoon last.

Local tennis players took part in the tournament up at Stony Plain on Friday last, and were quite successful. The trophies won are now at the engravers.

When the way freight was pulling in to the station Monday morning the train crew were surprised to see a large 2-year old bull moose standing in the yard, looking round. The intruder was shooed up to the station, and after jumping a few fences, headed up to Stony.

The Grove's young athletes are all ready for the big program of games billed for Winterburn on July 9th.

Mr Fred Wallman, of the C.N. colonisation dept., visited the Grove on Saturday and inspected the books of the local agent.

The local horseshoe pitchers are busy practicing every evening, for the big tournament next week.

Our local butcher got in another shipment of lumber on Saturday.

The Grove's prominent politician says he's going right ahead from one election campaign to another, and expects to bring the present one to a successful close.

Here and There

(551)
A new queen of the Pacific will pay homage August 21 to a former Empress of the seas when the Canadian Pacific liner Empress of Japan, new 26,000 ton flagship of the company's Pacific fleet, steams through the Narrows to receive Vancouver's vociferous applause. Just before reaching Brockton Point the new Empress, gay with flags and bunting, will dip her ensign to the dragon-carved figurehead which rests on its pedestal in Stanley Park overlooking the waters of Burrard Inlet. The figurehead is that of the old Empress of Japan, scrapped and sold in 1923 after 31 years of service between Canada and the Orient.

Impressively simple ceremonies were held at Port William recently for the late P. E. Trautman, for the past 15 years Canadian Pacific Press representative in Western Canada. He was buried in the city where a large part of his career as a pioneer western newspaperman was passed as editor of the Port William Times-Journal. The cities of Port Arthur and Port William were officially represented as was also the railway company, while a large number of private citizens paid their last respects.

S.S. Princess Joan, new 5,000-ton steamer of the Canadian Pacific Railway's British Columbia coast fleet, became a floating hotel at Vancouver recently when 425 members of the Grand Hotel Lodge of British Columbia swarmed aboard for their 59th annual convention at Foway River.

The Algonquin Hotel at St. Andrews-by-the-Sea has opened ahead of its usual time with three conventions booked prior to the official opening of the St. Andrews season the last week in June.

Fifteen years ago the average hen in Canada laid 50 eggs annually, according to Professor E. A. Lloyd of British Columbia. This number has now grown to 70. From extra eggs alone, Canada has produced an increased revenue of more than \$200,000,000.

Nearly one billion dollars was invested in central electric power stations in Canada at the end of 1928, or \$56,919,508 to be exact, according to an official report issued by the Canadian Government, Bureau of Statistics. This is twice the amount of the investment in this industry in 1920 and over \$90,000,000 more than the total in 1927.

At the fourth World's Poultry Congress to be held at the Crystal Palace, London, July 22-30, Canada will have a total of 552 birds in competitive entries, also 432 exhibition birds and 244 production birds. Exhibits of ducks, geese, pigeons, and rabbits will also be there from the Dominion. Birds from the ranch of H.R.B. the Prince of Wales at Pelly, near High River, Alta., will be among the many interesting exhibits.

The first four months of the current year saw 593 homesteads filed upon in western Canada, thus beating the same period last year. The increase was furnished almost entirely by Alberta, though British Columbia showed a small gain.

CHAPTER XIX.—Continued

Charman nodded, took the scrap of paper and stubby pencil he was holding, and wrote it down.

"I never was much good at remembering addresses," declared the doctor. "Here it is, Annie. Run in quickly, or you'll take cold."

The small girl who had followed him from the house, grasped the paper in her cold hands, and, with a shy smile for Charman, scurried away like a half-frightened animal.

"They must be very poor," said Charman as the doctor took his place beside her. "What does that woman want with Jimmy's address?"

She was thinking: Could it be possible that Jim was still collecting interest, at this distance? The thought hurt incredibly. For the sake of auld lang syne and her peace of mind, she wanted to think better of him than that. But how could she if . . .

She turned to look at the old doctor. He seemed to have read her thoughts as he responded: "There is a verse in the Bible, Charman, that says: 'When thou doest alms, let not thy left hand know what thy right hand doeth.'"

"That applies as well as anything could, I think, Jim Bennett's character. Seeing him going about the country on the bank's business the best man for the job they've ever had, according to George K., one wouldn't suspect that he was wearing the mantle of the Good Samaritan, now would they?"

"I—I don't seem to understand."

The doctor smiled at her bewilderment.

"Why should you? If I didn't follow pretty closely on Jim's heels, I wouldn't understand, myself. Like as not he'd pound the life out of me for telling; but that doesn't scare me—with the boy three thousand miles away! You see, my dear, Jim's father left considerable property. Jim came into his share at twenty-one, and he earns a good salary at the bank. He's well fixed—for Wickfield. No to save his mother, and she's provided for."

The old man paused, while Charman urged impatiently: "Go on, please, Doctor. You're wandering all 'round Robin Hood's barn." You say that Jim is a good Samaritan; but if collecting interest from windows and orphan—

"Tut! tut!" broke in the doctor quickly. "You go too fast. I think you'll admit that there's a difference in collecting interest from the poor, my child, and paying that interest for them—lending a hand—helping a

lame dog over a stile, you know—loaning one's own money with no interest. That's what our Jim's been doing for five years whenever he came across a case deserving help. That woman wanted his address so she could send a Christmas card."

"Oh, no!" cried Charman. "This was the doctor understood, not a protest at the Christmas card, but at her own blindness. She had to get her firm white teeth into her lip in order to keep it steady. "I must have hurt him horribly," she confessed after a tense moment. "I was a fool! I didn't see. I asked if he felt like—like Shyluck!"

There came a silence; then the doctor said: "Yes—that would have hurt."

"He should have told me," cried Charman, grasping at this straw in his distress.

"How could he—being Jim? You had misjudged him," responded the old man with rugged honesty. "I shall never, never forgive myself!" she declared passionately.

The doctor smiled. "Perhaps not, but Jim will forgive you, child, if I know him as I think I do. There's Charman, don't be too much disturbed. Just drop the lad a line and say you understand."

"But will he understand?" asked the girl, raising unhappy eyes to her old friend. "I should think he'd despise me."

"Not Jim!" answered the doctor. "Come, child, cheer up. We're almost home, and I don't want Grandma to think that I've been scolding you."

Charman managed a misty smile as she replied: "I deserve worse than a scolding. I—I ought to be—lynched!" And they both laughed as they drove up before the window where Grandma was waiting.

"So you've had a ride?" she asked as the girl came in. "Were you warm enough? It's a terribly cold day. The doctor's run in three times from the office to look at the furnace. I wish I was young enough to marry that man, Charman, just to keep him in the family. Some one'll get him."

"Undoubtedly."

Charman smiled, but as she slipped off her coat and sought the register for warmth, her recent conversation on the subject of John Carter came back, and her color deepened.

"Yes, I was warm enough, Grandma, thanks to Doctor Howe's 'old faithful,' as Jim calls that ancient cape. We went to South Wickfield while he made a call."

"Who-on?" asked Grandma with ready interest. "The real sick season's just beginning."

"The Smithsons. The mother has the grippe, but she's on the mend."

"Poor soul!" murmured Grandma compassionately. "She must have a real hard time making both ends meet. You ought to carry her something good to eat, child, while she's laid up. I don't suppose there's any one to do for her but Edward Howe, though she won't have to worry about her doctor's bill. Sometimes I've wondered how she's managed to keep a roof over her head, left as she was with all those children."

"I'll tell you how," said Charman, and proceeded to divulge Jim's secret. Her voice trembled as she finished, not wishing to spare herself. "And I asked him, Grandma, if he didn't feel like Shyluck! I remembered he answered, 'Why on earth should I?'—and that made me mad. Oh, I do think I'm the stupidest girl in the whole world! It does seem, when I've known Jim Bennett all my life, as if I might have understood that he wouldn't be hard-hearted to—a to a sick kitten!"

She had sunk down on a hassock at Grandma's feet, and the old lady reached out and stroked her hair.

"There, dearie, Jim isn't one to bear a grudge. You just write him a real nice letter and say you're sorry. And that reminds me of something else. Jim was here one day when you were out. He wanted I should make you understand something after he got away, and the only times I've thought of it were when you were at school, or evenings when the doctor was in and I couldn't speak. It was about his mother and that apron-string business that's always bothered you. He said he'd tried to explain to you, but somehow he couldn't get it out, so he came to me. I guess maybe it's easier to talk to old folks. You see, dearie, . . ."

The girl looked up, breathless, as Grandma, finishing Jim's story, said: "I taught me a lesson; but if I forget myself, Charman, and ask any promises of you when my time comes, it'll be because I don't know what

I'm doing, and you mustn't feel called upon to keep 'em. James Bennett never meant for Jim to be a slave to his mother the way he has been. I told him so, and I think it made the boy feel happier. Anyhow, he said I did him a sight of good. I've an idea that Jimmy's a lot more sensitive than folks give him credit for being."

"I—I don't see why he finds it so difficult to talk to me," said Charman, a vague hurt tugging at her heart.

"I do," replied Grandma. "It's for two reasons. One's because he felt you didn't understand him; and the other's because he cares so much more for you, dearie, than you've ever cared for him. I declare, Charman, so long as you don't seem to want the boy yourself, I hope he'll meet some real nice girl out in California, and marry her. He'll look different to a girl who hasn't seen him in short pants' days, wading barefoot in Fuller's brook, and his toes tied up afterwards in rags because he's stepped on a broken bottle or something—more romantic maybe."

A reluctant laugh escaped the girl as she arose.

"Well, Grandma, I feel like a criminal; but I suppose we've got to eat. Thank goodness it's been night and everything's ready. You and John will have to play double Canfield this evening instead of bridge. I've got to write to Jim, or I shall be able to sleep a wink. I feel," she added, turning as she reached the door, "I feel just about one inch high!"

CHAPTER XX.

What ails our "Blessed Damozel" these days?

Grandma and the young doctor were eating their noon-day meal at the kitchen table. Christmas had come and gone, and Wickfield had settled down to the cold, hard, relentless winter months. For three weeks snow had fallen at frequent intervals, freezing almost as soon as it reached the ground, so that the roads and sidewalks were packed.

Charman had expressed a wish that, despite the cold, they might stay that way till spring because the walk to school was so much easier on the hard snow than through the slush and mud that accompanied warmer days. She had refused the doctor's offer of a ride, and, feeling vaguely troubled, Grandma had watched her out of sight. Something was wrong.

John Carter's question, therefore, came as a relief, giving her an opportunity to speak her thoughts. Yet she hesitated at his manner of putting it, though the young M.D. had addressed her granddaughter in a like manner many times since a day in August when he had driven into the yard to find her leaning from his own bedroom window, the sun making an aureole of her hair. He had stopped the car directly below her, and stared up in admiration as he said:

"You look like the blessed damozel."

Charman had smiled, but she had slipped off her coat and sought the register for warmth, her recent conversation on the subject of John Carter came back, and her color deepened.

"Yes, I was warm enough, Grandma, thanks to Doctor Howe's 'old faithful,' as Jim calls that ancient cape. We went to South Wickfield while he made a call."

"Who-on?" asked Grandma with ready interest. "The real sick season's just beginning."

"The Smithsons. The mother has the grippe, but she's on the mend."

"Poor soul!" murmured Grandma compassionately. "She must have a real hard time making both ends meet. You ought to carry her something good to eat, child, while she's laid up. I don't suppose there's any one to do for her but Edward Howe, though she won't have to worry about her doctor's bill. Sometimes I've wondered how she's managed to keep a roof over her head, left as she was with all those children."

"I'll tell you how," said Charman, and proceeded to divulge Jim's secret. Her voice trembled as she finished, not wishing to spare herself. "And I asked him, Grandma, if he didn't feel like Shyluck! I remembered he answered, 'Why on earth should I?'—and that made me mad. Oh, I do think I'm the stupidest girl in the whole world! For Young and Old Alike

ENO is so mild it can safely be given to any child, yet it is quite as effective for grown-ups, eliminating from the systems of young and old alike the clogging waste and poisons which cause intestinal absorption . . . unsuspected constipation . . . Refuse substitutes.

ENOS

FRUIT SALT

"Her eyes were deeper than the depth
Of waters stilled at even;
She had three lilies in her hand,
And the stars in her hair were seven."

"Did you do it purposely?"
Charman, still leaning on the window sill, glanced down at the golden lilies in her hand; and answered: "Not guilty. As you perceive, I have had a shampoo. I went into the garden to let the sun lend a hand at the drying, and picked these posies for your bedside table. This accounts for my invasion of your domain; but your imagination is vivid, Doctor John. Where, please, are the seven stars to adorn my hair?"

(To Be Continued.)

Minard's Liniment for All Strains.

Stands Every Test

No Food Has Been Found To Take Place Of Milk

Milk is the food of all foods for mammals—of whom man is the chief. Further, it is the only food actually designed—and evolved by nature to be food for them. It is, of course, merely lack of knowledge to regard milk as not a food because it flows as a liquid. In reality, it is solid in the breast and in the stomach; in nature it is only fluid for a second or two of convenient transit from one to the other.

Ordinarily we do not test our foods. Our diet is mixed, and we have a large factor of safety capital on which to draw during time of deficiency. There are four periods, however, during which food may really be tested; growth, athletic exercise, illness, and old age. And no other food can be suggested which remotely approaches milk when tested under these four conditions.

Metallized Paper
M. U. Schoop, of Zurich, Switzerland, has announced that he has developed paper money which will not burn, tear or wear out. His process is described as spraying paper pulp with a protective coating of tin, aluminum or copper. The metallized bank notes are hard-surfaced but are said to be pliable and easily handled.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

A Rare Occurrence
February, 1886, was the most remarkable month in the history of the world. There was no full moon. That same year, January and March had two full moons each. This never happened before—and will not happen again for 2,500,000 years.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugist's.

A clock in an observatory at Sydney, Australia, is operated by sunlight.

W. N. U. 1845

Geo. Miesner Disappears

The mystery connected with the disappearance of George Miesner has not yet been cleared up. George left Edmonton early in June, for Vancouver, presumably with small capital. He had not been there very long before he made the acquaintance of a gent who showed him how to increase his capital by the short route. George came back East, secured an amount said to be between \$7000 and \$8000, and returned to the Const. Apparently he made an investment, as intended; but since then nothing has been heard of him, altho Vancouver police were put on his track. An unconfirmed rumor has it that George made a pot of money and in a world cruise.

Mr Meisner was an enterprising young farmer, and had a host of friends here; but had got tired of farming and wished to change his occupation.

Duffield Doings.

Mr and Mrs Claud P Reid, accompanied by Miss Cahill and Miss Thomas of Edmonton, left last week on a motor trip to Nova Scotia, where they will spend the holidays with Mr Reid's parents. En route, they will call on relatives and friends at Detroit, Mich., Sherbrooke and Stanstead, Que. Mr and Mrs Reid will return to their school at Opal, Alta., the 1st of Sept.

The regular monthly meeting of the local Women's Institute will be held Tuesday, July 22d.

Localities are looking forward with interest to the day of the big parade of the braves from the nearby Reserve, on Treaty Day.

Work commences this week on the road down from the Baseline to the village.

Those interested in politics are getting quite a kick out of listening to the speeches of the statesmen over the radio every evening.

Calendar.

JULY—
12—Hon. Charles Stewart holds a meeting in Moose Hall.
14—Edmonton Exhibition opens.
16—C. Hyett Auction Sale.
27—Waltham League Rally at Edmonton Beach.
28—Election Day.

AUGUST—
1—Lings Councillors meet.
3—German celebration in Edmonton.
6—The W.T.'s Garden Club competition.

Notes of the Election.

Those participating in this political campaign miss the kindly word and hearty handshake of Mr James Reilly, well known here. "Jimmie" is summing down at Waterloo Lakes, and is not in as good health as his friends would wish.

The corrected returns show that, when the new Assembly opens the Brownlee Government will have a majority of 16 not counting the Speaker. The Liberals 10, Conservatives 6, Labor 4, Independents 3. There will be 5 parties in the new House.

At Mr King's big Liberal Rally in Calgary on Friday, the speakers were interrupted so frequently the police were called on to eject the disturbers.

The present political campaign for the Federal seat is getting rather tame in comparison with the hectic outburst the last few weeks of the Provincial contest. The Liberal candidate's admirers appear to think Mr Stewart's 1926 majority of 1451 will be too great a handicap for the genial Colonel to overcome.

Half a peanut will supply enough brain energy for an hour's hard thinking. An exchange prints the item for the benefit of political spell-binders.

Bright Bank Briefs

Mr P Sutherland and family made a motor trip to Rabbit Hills last week.

Mr Johnson of Wildwood has been visiting relatives in this district.

Mr Groskopf has another visitor from Germany staying with him at present.

The recent big hail storm did some damage here, particularly among the gardens. What the hail didn't get, the cutworms are working over.

"Big Jim" is busy manufacturing a cutworm catcher. He intends giving a demonstration of this at Edmonton Ex. on the 15th.

Mr J Young recently got a severe shaking up when riding a wild young horse which took fright and bucked, Mr Young staying with him until the cinch was put.

CONTINUED FROM PAGE 1.

marriage by her brother Vincent, was attended by two bridesmaids, Miss Florence Kinney who wore a frock of pale blue net with hat to match; Miss Barbara Beuerlein wearing pale pink georgette. Mr Jos. O'Donnell attended the bridegroom.

The wedding march was rendered by Rev Father Burke; Mrs T N Masse being the soloist, who beautifully sang an Ave Marie and other hymns appropriate to the occasion.

Following the wedding breakfast, which was served at the King Edward hotel, the happy couple left for a honeymoon to be spent on a tour thru the mountains. On their return Mr and Mrs Beuerlein will make their home at the Grove. The bride is a graduate of General Hospital, Edmonton, and for some time has been employed on the staff of University hospital.

Sporting Notes

The Fort's good ball players are billed to play here the afternoon of July 13.

Stony Senior's ball team played the Onaway ball-tossers on Friday evening at Onaway, and won 12 runs to 3. Stony battery: Ph Enders p; C J Lory c.

At the ball game in Stony the afternoon of July 6th, Evansburg played Stony Seniors. The local team played good ball, and won by a score of 8 runs to 4. There was a good attendance of spectators present. Stony battery—Ralph Witherspoon p. C J Lory c.

A good ball game will be on the program at Edmonton Beach on Sunday afternoon.

The Gardens Competition.

The Women's Institute will hold a Garden Club Competition & Flower Show on Wed. afternoon, Aug. 6th. Any child or adult may enter their garden, not later than July 25. Entry fee 25c. Particulars for entry may be obtained from Mrs R A Walton or at the Drug Store.

Any person wishing to exhibit house plants may bring them to the Flower Show to be held in the Curling Rink building at 2 p.m. Aug. 6th.

This date being granted as a Civic holiday, there will be a Sports Program at the Fair Grounds, headed with an Automobile Parade. Prizes to be given for 3 classes of decorated cars. Entry to be made on Aug. 5 at the Drug Store.

Every one welcome to join the Big Parade.

Railway Time Table

Going East—Every day except Tuesday at 7:01; every morning at 6:23.

Going West—Every day except Sun. at 22:28; every midnight at 24:04.

The Confederation leaves Edmonton, Westbound 8:30; Eastbound 17:05.

TENDERS WANTED.

The Trustees of Tecumseh S. D. No. 1992 are calling for tenders for fixing up the School. Small alterations by the house.

Further particulars can be obtained from the Secretary-Treasurer.

Apply not later than the 12th July, 1930.

MRS. R. WASHEURN,
Secretary-Treasurer,
Brightbank P. O., Alberta

Tenders Wanted

SEALED TENDERS will be received by The Board of Trustees of The Willingdon School District No. 4261 at the office of the Secretary-Treasurer up to Friday, July 25, 1930, for the following:

1st. Kalsomining walls and ceiling of School House;

2nd. Fixing up cracks in basement walls and holes in basement floor.

All work to be completed by August 25th, 1930.

Further information can be obtained from the Secretary-Treasurer, or from Mr. Steyck, Chairman, close to School.

Lowest or any tender not necessarily accepted.

C. R. EDWARDS,
Secretary-Treasurer,
Carvel, Alberta

VACATION TIME

go for a week, a month
or more, but go!

**DELIGHTFUL RESORTS
FROM COAST TO COAST**

offer ample scope for your
favored recreations

EAST

**MINAKI MUSKOKA LAKES, 1000
ISLANDS**—These are only a few of the
resorts in Ontario which is a veritable
land of Horat's Daisies. In this province there
is a resort to suit every taste and purse.

IN ANCIENT QUEBEC—The Vacation
Land of Romance, where old-world customs
and landmarks still abound. Many lovely
resorts on the Lower St. Lawrence, in the heart
of French-Canada.

THE PROVINCES BY THE SEA—Sea-
side resorts and woodland playgrounds
abound in the Maritime Provinces. Fish-
ing, sailing, forest rambles make each day a joy.

WEST

CANADIAN ROCKIES—Visit the play-
ground of Canada's wonderful West—
land of mystery-of towering, aged
mountain ranges. Stop over at Jasper National
Park—enjoy its superb hotel service—hunting—
skiing and mountain climbing. Jasper
Park Lodge open May 1st to September 30th.

TRIANGLE TOUR—Wander from Jasper,
the scenic beauty of the Triangle
Tour—along the mystic Shuswap to Prince
Rupert—by boat through the Shuswap
of the North Pacific or Vancouver—back
through the awe-inspiring mountain scenery of
the Rockies.

Take a boat trip to Alaska,
the great Roman, Charn and Mystery.
The magnificent Canadian National Rail-
way offers a twelve-week service
from Vancouver to Prince Rupert. Excellent
excursion fares for Lake Athabasca and
Yellowknife by the White Pass and Yukon Railway.
National Railways Klondike Trail of '96—a
treasure of skills and a constant presence
of magnificent scenery.

For full information and map apply
to the Canadian National Railway.

**May 15th to Sept. 30th
Final return Oct. 31st**
